Add some items to get started

The image is a screenshot of a mobile application interface for a food delivery service. At the top, there's a navigation bar with a logo on the left, a pickup time indicator "Pickup • in 20 - 30 minutes" in the center, and a "Your bag" label on the right. Below the navigation bar, there's a menu with categories: "Starters", "Build Your Own", and "Wings and Sliders". The "Wings and Sliders" category is currently selected. The main content area displays a list of food items. The "12pc Wings" item is highlighted, showing a photo of the wings, a price of \$13.00, and a quantity selector set to 1. A modal overlay is open for the "12pc Wings" item, allowing for customization. The modal has a close button (X) in the top right corner. It is divided into sections: "Comes with:" with options "Carrots" and "Celery" (both with right-pointing chevrons), and "Sauce Choice" with the instruction "Select up to 2" and options "BBQ", "Buffalo", "Chipotle", "Garlic Parmesan", "Honey Mustard", and "Lemon Pepper" (all with checkboxes). There is also a link "View 7 more" under the sauce choices. At the bottom of the modal is a blue button labeled "Add to bag" with the price "\$13.00".
